4. Rotating the handle clockwise to grind

5. Unscrewing the powder pod Pouring out the coffee ground

⚙️ Grinding thickness adjustment

(Factory default is for moderate)

- ① If you need to adjust the thickness, you need to fix the center axis with the handle and then adjust the dial
- ② Turn the dial clockwise, the grinding core turns inward and becomes thinner
- ③ Turn the dial counterclockwise, the grinding core turns outward and becomes thicker (Adjust according to the icon)

Turn the dial clockwise
to be thinner

Turn the dial
counterclockwise
to be thicker

○

*Cleaning and maintenance:

- ① When using for the first time, grind a little beans and discard them to clean the core
- ② the fuselage inside cannot be washed directly, the core needs to be disassembled to wash or cleaned with a brush
- ③ The bean pod only for roasted coffee beans, not for other materials
- ④ The fuselage outside is washable, dry it with soft cloth after cleaning
